Objective

To utilize my technical skills and provide a professional service to customers by applying and honing my knowledge and working in a challenging and motivating working environment.

Education

- **Hyderabad Institute of Technology and Management** 2023-2027
Btech in Computer science and Machine Language
- **New Vision Jr College** 2021-2023
Intermediate-MPC
- **Winfield High School** 2020-2021
10th

Skills

- Languages: Java, Python, C
- Web: HTML, CSS, JavaScript
- Cloud Technologies: AWS S3, AWS CloudFront
- Database Technologies: SQL, Database Management Systems (DBMS)

Projects

- **Quiz Battle**
OS Quiz Battle is a fun and educational two-player quiz game built using HTML, CSS, and JavaScript. It focuses on Operating System concepts, where Team 1 and Team 2 take turns answering multiple-choice questions. The game includes a live scoreboard, dynamic question loading, and a team messaging system to encourage interaction. The visually appealing interface, real-time feedback, and competitive format make it an engaging way to learn OS fundamentals.
- **Tourism Website with Global CDN using AWS**
Developed and deployed a static tourism website using HTML and CSS during a Summer Internship project. The website was hosted using Amazon S3 Static Website Hosting and integrated with CloudFront CDN to enable faster global content delivery and reduced latency. Configured bucket permissions, static hosting settings, and CloudFront distribution to improve website accessibility, scalability, and performance using Amazon Web Services cloud services.

Internship

- **Summer Intern - AWS Cloud Computing**
Worked on deploying a tourism website using Amazon S3 and CloudFront CDN to enable scalable static hosting and faster global website delivery.
